EDUCATION

Bachelor's Degree | *Department of Computer Science*

Sept. 2016 – May 2021

Bilkent University

Ankara, Turkey

Coursework Algorithms & Complexity, Database Systems, Information Retrieval Systems, Application Lifecycle Management, Software Verification and Validation, Software Engineering Project Management, Computer Vision, Artificial Intelligence, Linear Programming

TECHNOLOGIES & SKILLS

Computer Languages

Java, Python, JavaScript, HTML/CSS, C/C++, SQL

Frameworks & Tools

Node.js, ReactJS, TypeScript, MongoDB, Angular, PyMongo, Linux Shell, Unity3D

Concepts

Databases, Design Patterns, Data Structures

Languages

English (Native), Turkish (Native), German (B2), French (A1)

WORK EXPERIENCE

Summer Intern

August 2020 – September 2020

Ekin Technology

Ankara, Turkey

- Worked in Database team as Full Stack Developer.
- Developed both client and server sides of the settings page, enhanced sensor page and added new functionalities written in JavaScript(TypeScript, NodeJS, NestJS).
- The technologies I've used during my internship are MongoDB, PrimeNG, Angular, TypeORM.

Part-time Software Engineer

September 2020 – March 2021

Ekin Technology

Ankara, Turkey

- Member of Artificial Intelligence Team
- Participating in team's deep learning projects from data labeling to model training and testing.
- Data engineering including extracting, transform, and loading. Using deep learning frameworks such as Darknet, Pytorch, ONNX.

PROJECTS AND RESEARCH

A full list of releases, demos, and source codes of my projects and papers can be found in [my website](#).

COMMUNITY INVOLVEMENT

LOSEV-The Foundation for Children with Leukemia

January 2016 – Present

Volunteer work in sales and packing departments

Turkey

HOBBIES

- Horseback Riding
- Astronomy
- Cooking (Japanese/Turkish/French/Italian Cuisine)
